

## **README FIRST BEFORE INSTALLING GANTTDIVA PACKAGES**

### **\*\* IMPORTANT \*\***

**\*\* For this installation file, you must have either Excel XP or Excel 2003 installed on your computer**

This Zip file contains an msi package for installing the GanttDiva VBA based program, a help file, several sample projects and shortcuts for your desktop and program menu.

It also contains an msi package required to decrypt the VBA code in the spreadsheet (lockxlsrtm).

**The GanttDiva program will not work unless the appropriate lockxlsrtm package is installed.**

### **Installation Instructions**

#### **A) Excel XP and Excel 2003 version**

- a. Extract all files to a temporary folder
- b. Run the lockxlsrtm.msi package (it can be started by double clicking its name)
- c. Run the GanttDiva\_06.msi package

The GanttDiva spreadsheet and sample projects will be installed in a folder in your my Documents library as shown below.

#### **<My Documents>**

##### **<GanttDiva>**

GanttDiva.xlsm

Gantthelp.chm

##### **<Sample Projects>**

Small renovation v1.xdi

SWActivityTemplate.xdi

SysDesignTemplate.xdi

**Note that when GanttDiva is started, macros MUST be enabled or else the program will not work!**
